

Compliance & Ethics Week!

Monday, November 2nd

Help Us Celebrate!

This week, your Compliance Department will be celebrating Compliance & Ethics Week to shine a spotlight on the importance of having a successful compliance program as well as build awareness in ways that reinforce a culture of compliance and ethics excellence.

There will be fun learning opportunities throughout the week that include games, compliance facts, daily prizes and a chance to win a basket of goodies made by our wonderful Gift Shop team! Please join the Compliance Department in celebrating Compliance & Ethics Week!!

What is a Successful Compliance Program?

A successful compliance program provides guidance and support organization-wide for employees to make appropriate decisions regarding both clinical and business practices.

A successful compliance program ensures that the healthcare organization:

- Operates in accordance with applicable laws and regulations;
- Creates a culture of honesty and integrity;
- Meets high ethical and professional standards;
- Aids in the prevention of fraud, waste and abuse and other compliance issues (e.g. inappropriate conduct, etc.).

However, a successful compliance program is not measured solely by the success of its Compliance Department but rather the entire organization. A truly effective compliance program must have a commitment from everyone to comply with policies, laws and regulations. Employees and leadership must also work together to hold each other accountable to behave compliantly, ethically and to act with integrity.

"We are what we repeatedly do. Excellence, therefore, is not an act but a habit." –Aristotle

Compliance Trivia!!

The first 5 participants to submit the correct answer to [REDACTED] will win a prize!
All participants will be entered into the drawing for the goodie basket on Friday!

Who are your Compliance Department team members? (Hint- There are three.)
