

Best practices on Ground Zero to **HALT CORONAVIRUS HACKERS**

Cyber crooks will try to trick you. A simple alert to IT could prevent big problems.

Do not open emails that:

- Raise any suspicions about the authenticity of the sender
- Relate to COVID-19 from unknown senders

Watch what you click:

- Never click a link or open an attachment from an unknown sender
- Only visit work-related websites you know
- Don't visit websites for personal reasons
- Don't click links to sites you don't know

Safe remote access practices:

- Encrypt whenever possible
- Don't share work devices
- Don't download information to personal devices
- Stay off public wi-fi
- Report lost or stolen devices immediately

To immediately report any suspicious activity, contact:
