

LinkedIn has enabled a new feature called "sections" for its individual user profile pages. This includes the option to add Certifications.

SCCE encourages our members to add any certifications to their profiles, including CCEP and CCEP-F

To utilize the feature, go to the "Edit Profile" section of your profile and at the bottom you will see the option to "Add sections". Then select "Certifications" and click "add to profile". Last, fill out the certification information and click "add certification"
